

FKA is a Michigan based consortium of globally distributed brands. Homedics, FKA's largest brand, was started over 30-years ago and has built a robust supply chain that manufactures and distributes millions of health and wellness products every year. As the innovative leader in self-care, wellness, and personal health devices, HoMedics strives to provide products that promote overall well-being. HoMedics has an extensive line of in-home wellness products in various categories such as Air Purification, Humidification, Sleep Therapy, Massage, Beauty, Diagnostics and more. FKA has been working with all major national and international retailers and has established strong lasting relationships. FKA Brands is dedicated to developing, manufacturing, and distributing products that enhance people's lives.

As this horrific situation unfolds, we at HoMedics have joined the effort to make critical PPE supplies available during the COVID19 crisis. Our robust supply chain, internal FDA compliance department, and our boots on the ground in various countries around the world have afforded us the ability to seamlessly transition to assisting with the PPE shortage. Throughout the years, we have become a manufacturer of class 1 and class 2 medical devices which requires robust regulatory capabilities to ensure compliance, and most importantly efficacy, in the products we produce. We have converted production lines within partner factories to produce masks and other PPE in order to get these critical supplies to those in need. We have our offices around the world auditing all potential factories to make sure that they are fully compliant and that their quality is up to the necessary standard.

Our primary goal is to immediately support healthcare facilities, and those on the front line, to get proper PPE so they can focus on saving lives. We are vehemently appalled by the price gouging that we see going on in the industry. In addition, we have seen terrible misrepresentation of goods being sold into hospitals, leaving staff underequipped for the fight. This cannot happen. This is where we excel and are doing all we can to aid during this trying time.

Alon Kaufman
CEO, HoMedics

Surgical Mask – Single Use

MASK-106-BULK

UPC: 0 31262 09922 8

GTIN: 200 31262 09922 2

FEATURES

- ≥95 PFE
- Helps protect against odor and dust
- 3-layer protection
- Eco-friendly and adjustable plastic clip for a proper fit
- Disposable and maintenance-free
- Color: Blue and White
- Main Material: non-woven fabric + melt-blown fabric + non-woven fabric
